

BANK WARRANTS BEING LOWERED

More Than \$2,300,000
Since March Cut Says
Wolcott

By the Associated Press State Wire.
OKLAHOMA CITY, July 26.—Outstanding bank warrants fund payments have been reduced approximately \$2,300,000 since last March, according to a financial statement issued today by Acting Bank Commissioner Roy Wolcott, who was appointed to fill the vacancy caused by the resignation of Fred G. Dennis.

The report explains that this reduction has been largely to the payment of notes and other securities found in failed state banks. Warrants outstanding on June 30 totaled \$1,646,000.40, the statement shows, of which \$331,000 is held by the state banking board as security for assessments on state banks.

Commissioner Wolcott said in the report that W. G. Greening now is general liquidating agent for the state and he is at present perfecting an organization plan which is expected to effect a further decrease in warrants by enforcing the double liability law against stockholders in failed banks.

RELIEF FOR CRIPPLES
Many Tulsa County Persons Interested in National Shrine Undertaking, Says Housner.

Already a number of inquiries from interested persons in Tulsa county have been received relative to the shrine home for crippled children, according to Charles Housner, recorder for Akdar temple. The first home of its kind and the first one to be erected by the organization is in St. Louis, which will cover the needs of the southwest and is nearest to Akdar temple territory.

Shriners have already been assessed \$2 each for this year, such assessment being the manner adopted for the raising of the building fund for these homes. Five hospitals, aggregating an expenditure of \$2,000,000 are now in course of construction, one at St. Louis, one in Shreveport, another in Minneapolis-St. Paul, one in Portland and one in Montreal. Five more sites have been selected in different cities and construction will be begun within a short time.

Four hundred and eighty thousand crippled children within the jurisdiction of the Shrine are awaiting relief that can be afforded them by these homes. The \$2 yearly assessment made by the imperial council on each of the \$50,000 Shriners means a \$1,000,000 fund annually for this humanitarian work.
